The sliding canopy makes this an easy boat to drive as access onto decks straightforward. With the front bedroom cabin and main living rooms separated by wheel house it creates nice zones in the boat.

*SHE'LL BE RIGHT*

Port driving position in central wheel house under sliding canopy to enjoy the fresh air whilst cruising. Windscreen also folds to create an open feeling or to access low bridges. BMC diesel inboard is under floor, batteries in seating boxes.

Spacious open-plan rear cabin provides the centre hub of the vessel. This main cabin boasts a huge U-shaped seating area with enough room for a full-sized dining room table to seat the family round. This comfortable settee converts to a double berth to provide additional sleeping facilities. Adjacent a large galley kitchen with full size lpg cooker provides ample space for food preparation and storage, with several full size under counter cupboards. There is an attractive charcoal burner for heat and provision is already in place for a diesel heater to be installed.

Beyond the main open plan area is yet more. The width of the boat enables a large bathroom with second w/c and shower as well as utility room at the stern. There is also a semi-private single day-bed at the stern, separated from the main living area by half-wall: an ideal quiet retreat for reading or relaxation. Whilst the interior would benefit from some simple aesthetic improvements a number of beautiful original features remain and the whole cabin benefits from new carpet and a lovely bright and breeze atmosphere.

There is a lpg water heater that will need servicing, or can be converted to electric. Being originally designed for hire until her main owner had her from 1998 until 2015 she is easy to maintain and everything has been designed for longevity. She has an extensive hull restoration around 4 years ago, so requires little to enjoy. Here is a link to her history.

#

***She'll Be Right*** is a boat ready to use and provides excellent value, as, subject to normal terms and conditions, may be able to come with a mooring at the picturesque Castle Quay moorings on the river Medway. She is also ideal to return to her native Norfolk Broads, or as a live aboard boat in London or on the tidal Medway. We are happy to help facilitate road transport if required. As with all boats there are additions that can be made to improve her to meet the new owner's needs. The main condition of the boat is very good for a craft of this type and will provide many happy times for her new owners. Please do not hesitate to arrange a viewing of her today as she has been priced to sell due to her owner's relocation.

**LOCATED AT CASTLE QUAY, RIVER MEDWAY. 07791957099**
